PROTEXITY

CAPABILITIES
STATEMENT

ABOUT
US

Customer focused, outcome driven.

Protexity is a cybersecurity consulting firm focused on helping organizations close security gaps and become resilient to cyber attacks.

We place a heavy focus on helping companies master the fundamentals to ensure they don't create a false sense of security by skipping the essentials.
SERVICES
OVERVIEW

Defensive Services

Identify security deficiencies and improve your defenses

Offensive Services

Validate the effectiveness of your existing security controls

Advisory Services

Leadership guidance to achieve cybersecurity initiatives

Managed Services

Leverage our team to detect and respond to cyber threats

DEFENSIVE
SERVICES

Core defensive services are:

- **Cloud Services Assessment** - assessments that evaluate AWS, Google Cloud Platform, and Microsoft Azure to identify vulnerabilities.

- **Security Gap Assessment -** full-spectrum or a la carte assessments that identify security gaps related to people, processes, and technology.

- **Vulnerability Assessment -** electronic scans that identify system misconfigurations, vulnerable operating systems and software, etc.

- **Active Directory Assessment** - Active Directory assessments find misconfigurations and other vulnerabilities that make AD exploitable.

OFFENSIVE
SERVICES

Core offensive services are:

- **Penetration Testing** - full spectrum simulated attacks designed to test the effectiveness of your organization's security controls.

- **Assumed Breach Testing -** testing of security controls from the perspective of a malicious insider or attacker already in the network.

- **Red Team Assessment -** multi-faceted simulated attacks designed to test your organization's threat prevention, detection, and response capabilities.

- **Purple Team Assessment** - we work with your organization's blue team to identify and close gaps in prevention, detection, and response.

ADVISORY
SERVICES

Core advisory services are:

- **Virtual CISO** - cybersecurity leadership to help create, drive, and complete security and regulatory compliance driven initiatives.

- **Vendor Risk Management -** identification and management of risks posed by third-parties such as vendors, suppliers, and service providers.

- **Policy & Procedure Development -** we work with you to develop policies and procedures that align with your organization's security objectives.

- **Compliance Readiness** - we help your organization prepare to become compliant with relevant regulatory compliance requirements.

MANAGED
SERVICES

Core managed services are:

- **Threat Detection & Response** - 24/7 full-spectrum or a la carte threat detection & response across your environment.

- **Email Security** - 24/7 email protection which includes encryption, malware and credential phishing protection, and more.

- **Vulnerability Management** - continuous electronic vulnerability scans across your environment and remediation assistance.

- **Security Awareness Training** - simulated phishing, on-demand training, knowledge assessments, and reporting to measure ROI.
